

FCC, my favorite radio station has informed me that you are wanting to expand LPFM stations across the country. My station is worried that by doing this they will be forced off the air. I want to please ask you to not do this. My self and thousands of others across the country listen to K-LOVE christian music radio. It would be a tragedy to loose this station. This station serves my local community on an ongoing basis with music that is both pleasant to listen to but also changing lives. People are learning about GOD and the wonderful things that can happen if you believe in him. The music they play is so filled with good messages and positive encouragement.

If we were to loose K-LOVE, our community would be devastated. There would be no christian music to encourage us. There would be no christian DJ's to help give us direction by their words. We can listen to it and not worry about what the DJ's say or what the words in the songs say. We know that there will be no bad words no bad ideas going into our kids heads.

I believe that the service provided by K-LOVE is in the publics interest because simply through them and the work they do and the music they play lives are being changed everyday. People are coming to know GOD, people are accepting Christ. They reported this morning that since January 2004, 8000 people have accepted Christ. This is amazing to me. They have such an impact on the community and the nation as a whole.

Please reconsider the LPFM idea, and lets keep a good thing. Thank you
